

## ERIH Initial List: Music and musicology (2007)

European Reference Index for the Humanities (ERIH) is a project jointly sponsored by ESF and the European Commission ERA-Net project "Humanities in the European Research Area" (HERA) (Contract no.: ERAC-CT-2005-0161179). It comes under work-package 7 (Research Infrastructures).

The ERIH lists will help identify excellence in Humanities scholarship and should prove useful for the aggregate benchmarking of national research systems, for example, in determining the international standing of the research activity carried out in a given field in a particular country.

As they stand, the lists are not a bibliometric tool. The ERIH Steering Committee and the Expert Panels therefore advise against using the lists as the only basis for assessment of individual candidates for positions or promotions or of applicants for research grants.

**Expert Panel Scope Note:** This panel covers scholarly studies worldwide of all aspects and types of music in all periods. It does not encompass composition, performance or any other practice-based research.

Musicology is therefore taken in its broadest sense to include the study of the following: classical music in its written and non-written forms; popular music; music in connection with theatre, dance, film and other media; theory and analysis; music and science; music technology; acoustics and psychoacoustics; ethnomusicology; music psychology; music education; sociology of music; organology; iconography; aesthetics and philosophy of music; performance practice; music therapy.

There may be some overlap with journals assessed by other panels that cover the social and cultural dimensions of music.
