2021 IBM PhD Fellowship Award Program

Nominations for the 2021 IBM PhD Fellowship Award program will be accepted until October 23, 2020.

About the program
The IBM PhD Fellowship Award program advances collaboration by recognizing and supporting exceptional PhD students who want to make their mark in promising and disruptive technologies.

Eligibility
Students must be nominated by a doctoral faculty member and must be enrolled as a full-time student in an academic PhD program. In addition, the student should have three academic years remaining at the time of nomination to benefit the most. The program seeks to increase the number of under-represented minority students in the referenced science topics of interest by encouraging a diverse applicant pool.
